

## Education

The SCS Group continued their excellent record in educational new build contracts by securing the contract for Appleton Academy, Bradford, for new client H and J Martin.

The development of Appleton Academy includes the new build construction of a state of the art, through age Academy, with ages ranging from reception class up to sixth form (3-18).

The 11,000m2 specialist sports and science Academy is built on 4 levels with pupils progressing up through the levels as they progress through the Academy.

The development will also incorporate a new build public library.

### The Result

The SCS Groups' vision, expertise and resource were tested in the construction of this inspirational new build Academy. The challenge was to create a learning environment to match the Academies motto - 'Aspiration and Achievement in Wyke'. This was certainly achieved through the use of SCS' design input and product selection.
