

Environmental Policy Statement

The Project Management of Construction Projects specialising in: - Lightweight Steel Framing System (SFS-infill, Over-sail & Structural) with the ability to provide outsourced design, Partitioning, Dry-Lining, Tape and Joint & Plastering, Suspended Ceiling Systems , GRG Architectural Feature Work, Acoustic Panelling Systems, Fire Protection

The Board of Directors of SCS Building Solutions are committed to operating their Business responsibly. They are committed to the care of the Environment and the prevention of pollution. In doing so the Company shall ensure compliance with all Legal requirements relating to protection of the Environment.

The Company will, where possible, try to eliminate or reduce the Environmental impact as a result of their undertakings, where SCS Building Solutions have control of the Impact, by: -

Providing resources in the way of a Management Structure to identify all Environmental issues relevant to SCS Building Solutions work.

Reducing waste, promoting recycling, reducing energy consumption, reducing harmful emissions and where possible, to work with clients and suppliers who themselves have sound Environmental Policies.

Setting Objectives and targets to improve Environmental performance.

Monitoring and reviewing the workings of this Environmental Policy at regular intervals.

Consulting with relevant statutory bodies and stakeholders to ensure best practice is observed and continual improvement is implemented.

In order to progress the above the company has implemented an Environmental Management System which satisfies the requirements of ISO 14001.

In addition SCS Building Solutions will continue to develop an approach to the management of the Company, recognising also that efficient management of energy and resources in materials, cuts cost and creates competitive advantages.

SCS Building Solutions will continue to develop and practise in-house environmentally caring policies covering its use of premises, sites, plant and other assets. The Company will also continue to promote energy efficiency and sound environmentally sensitive practices.

By using new technology - The Company is investing in a web based app "Chalkstring". This will enable estimating, surveying and site management to be completed quickly and accurately by the organisation. The technology will also enable a reduction in waste due to the over ordering of materials.

This Policy and the obligations and responsibilities required by the Environmental Management System will be communicated to all Employees and Contractors working on behalf of the Company by means of Site Inductions, Management Meetings and Training Sessions.

The Company will have the following Objectives to improve Environmental performance: -

Reduce carbon emissions of the company by investing in Hybrid and Electric vehicles

Further Encourage the use of them by providing 2 number 7 K/W charging points for employee use at company office.

This Policy is available to the public on request and will be reviewed periodically to ensure its continuing suitability, this is also available on our website.
