

Environmental Policy Statement

SCS are a specialist Subcontractor working in the Construction Industry, our services include SFS, Partitioning, Drylining, Suspended Ceiling Systems, GRG and Acoustic Panelling.

The Board of Directors of SCS Group are committed to operating their Business responsibly. They are committed to the care of the Environment and the prevention of pollution. In doing so the Company shall ensure compliance with all Legal requirements relating to protection of the Environment.

The Company will, where possible, try to eliminate or reduce the Environmental impact as a result of their undertakings, where SCS have control of the Impact, by: -

Providing resources in the way of a Management Structure to identify all Environmental issues relevant to SCS's work.

Reducing waste, promoting recycling, reducing energy consumption, reducing harmful emissions and where possible, to work with clients and suppliers who themselves have sound Environmental Policies.

Setting objectives and targets to improve Environmental performance.

Monitoring and reviewing the workings of this Environmental Policy at regular intervals.

Consulting with relevant statutory bodies and stakeholders to ensure best practice is observed and continual improvement is implemented.

In order to progress the above the company has implemented an Environmental Management System which satisfies the requirements of ISO 14001.

In addition SCS will continue to develop an approach to the management of the Company, recognising also that efficient management of energy and resources in materials, cuts cost and creates competitive advantages.

SCS will continue to develop and practise in-house environmentally caring policies covering its use of premises, sites, plant and other assets. The Company will also continue to promote energy efficiency and sound environmentally sensitive practices.

By using new technology - The Company is investing in a web based app "Chalkstring". This will enable estimating, surveying and site management to be completed quickly and accurately reducing the amount of paper used by the organisation. The technology will also enable a reduction in waste due to the over ordering of materials.

This Policy and the obligations and responsibilities required by the Environmental Management System will be communicated to all Employees and Contractors working on behalf of the Company by means of Site Inductions, Management Meetings and Training Sessions.

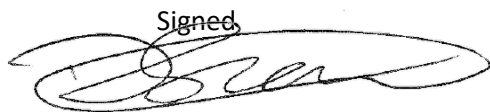

The Company will have the following Objectives to improve Environmental performance: -

To reduce overall Energy usage in the Head Office, SCS have taken steps to reduce their impact on the Environment by installing "A" rated Double Glazed Windows at Head Office and installing LED Lighting with the aim of achieving 30% reduction by 2020.

This Policy is available to the public on request and will be reviewed periodically to ensure its continuing suitability, this is also available on our website.

We achieved our Objective in 2017-2018 of 33% of the Companies Fleet to be Hybrid Cars.
