

Wellington Place

Office space in Leeds centre

As a showcase for the proposed new 2.7million sq ft business, leisure and retail quarter, No.2 Wellington Place combined cutting-edge design and materials, with locally sourced stone and brick. Our team's challenge was to install sustainable high tech ceilings that complemented the building's modern modular design, granted easy access and fulfilled the architect's vision for sleek, modern features and cove lighting.

The Result

SCS Group's expertise in suspended ceilings enabled us to deliver the consistency and quality of finish required of a project of this scale and stature. The distinctive SAS System 130 ceilings we installed not only followed the clean, unobtrusive lines of the surrounding rooms, but also created some of the city centre's most desirable office space. The success of Wellington No.2 has subsequently led to the development of No.3 and No.7 Wellington Place.

Main Contractor:
Quarmby

Architect:
Garnett Netherwood

Client:
Hermes

SCS Contract Scope
10,000m² SAS System 130 Ceilings,
Plasterboard Features

Contract Date:
2006

SCS Contract Value:
£450k

SCS Project Leader:
R Lambert
