

Trafford Centre

One of the UK's largest shopping centres

The 148,000sq.ft Trafford Centre has long been a Mecca for shopping in the North West. When the centre recently added a number of new walkways and extended its malls, SCS Group were challenged with creating low-maintenance solutions that mirrored the striking Cosmopolitan style of the existing interior. This required a thorough understanding of modern materials and traditional craftsmanship.

The Result

The SCS Group's ability to deliver bespoke GRG Feature work and an authentic hand-crafted finish created a unique retail space that simultaneously blended with its surroundings, interested customers and provided the new malls with a distinct and highly desirable identity.

SCS remain one of the few contractors committed to retaining traditional skills and time-honoured decorative techniques.
